

RULE BOOK

HYBRID HACK

Date of Event: 22nd June 2026 - 10th July 2026

Mode of Event: Online

Participation Type: Individual or a team of a maximum of 3 participants

Inaugural ceremony : 22nd June

Valedictory : 10th July

Round 3:

The top **15 teams** shortlisted from Round 2 will advance to the **Final Pitching Round**. In this round, participants will present their hybrid renewable energy solution as a **viable business model** in a live online session.

Each team will be given **7 minutes** to pitch their idea before a panel of judges, who will act as potential investors. The presentation should demonstrate not only the technical feasibility of the proposed hybrid renewable energy system but also its commercial viability, market relevance, scalability, and implementation strategy.

Following the presentation, teams will participate in a **live question-and-answer session**, where the judges will critically evaluate the proposal by asking questions related to the technical aspects, business model, market potential, financial feasibility, and practical implementation of the project.

This round emphasizes **innovation, communication skills, entrepreneurial thinking, and the ability to convince investors of the project's value.**

Submission Requirements:

Participants must submit the following before the presentation:

1. PowerPoint Presentation (Maximum 15 Slides)

The presentation should include:

- Problem statement and proposed solution
- Overview of the hybrid renewable energy system
- Working of the proposed system
- Simulation outcomes and key performance results
- Business model and value proposition
- Market analysis and target audience
- Implementation and deployment strategy
- Cost analysis and financial feasibility
- Scalability and future expansion opportunities
- Marketing strategy
- Competitive advantages and uniqueness of the solution
- Expected social, environmental, and economic impact
- Conclusion

Submission Format: PDF or PPTX

Presentation Guidelines:

- Each team will have **7 minutes** to present their project.
- This will be followed by a **Question & Answer session** with the judging panel.
- All team members are encouraged to participate in the presentation and discussion.
- Teams should ensure a stable internet connection, working microphone, and camera (if required) during the live session.

Evaluation Criteria:

Projects will be evaluated based on:

- Technical feasibility of the proposed hybrid renewable energy system
- Quality and interpretation of simulation results
- Business model and commercial viability
- Market potential and customer value proposition
- Implementation strategy
- Cost-effectiveness and economic feasibility
- Scalability and long-term sustainability
- Innovation and originality
- Marketing strategy and ability to persuade the judges
- Presentation quality, communication skills, and confidence
- Performance during the live Q&A session

Bonus points may be awarded to teams presenting the **most practical, scalable, and cost-efficient solutions.**

Outcome:

Based on the overall presentation, technical understanding, business feasibility, and performance during the live interaction, the **winning teams** will be selected and announced during the **Valedictory Ceremony**.

General Rules

1. Only teams shortlisted from Round 2 are eligible to participate in the Final Pitching Round.
2. Teams must present the same project developed during the previous rounds.
3. The presentation duration is strictly limited to **7 minutes**, followed by a live Q&A session. Teams exceeding the allotted presentation time may be stopped by the judges.
4. All team members should be familiar with both the technical and business aspects of the project and be prepared to answer questions from the judging panel.
5. The presentation must be original. Any form of plagiarism, misrepresentation, or fabricated results will result in disqualification.
6. Teams must submit their presentation before the specified deadline. Late submissions will not be accepted.
7. Judges may ask questions related to the simulation, technical implementation, business model, financial feasibility, scalability, marketing strategy, or any other aspect of the project.
8. The decision of the judges and the organizing committee shall be final and binding.
9. Any misconduct or violation of event rules may result in disqualification.

10. By participating, teams agree to abide by all event rules and decisions of the organiser.
